

## **Wikiprint Book**

**Title: 1. Chemistry configurations**

**Subject: Igcmg\_doc - Doc/Models/INCA**

**Version: 10**

**Date: 06/29/24 09:16:10**

## Table of Content

The INCA model	3
1. Chemistry configurations	3
2. INCA users' manual	3

## The INCA model

---

### 1. Chemistry configurations

The INCA model offers different chemistry configurations:

- NMHC : methane chemistry and non methane chemistry
- AER : aerosols only using a prescribed chemistry
- NMHC\_AER : methane chemistry and non methane chemistry + aerosols
- NMHC\_AER\_S : version NMHC\_AER + stratospheric chemistry
- GES : greenhouse gases
- DUSS : dust and seasalt versin

### 2. INCA users' manual

- The INCA technical notes can be found on this [wiki page](#).
- The INCA scientific notes can be found on this [web page](#).
